

### **Penguin Filter Bags**

*Filter Bags are the most economical disposable filter material available. They provide depth filtration and surfaces free of fiber migration while utilizing hot melt seamless welding technology to ensure effective filtration without filter bypass.*

*They are best suited for low and medium viscosity liquids and are available in a wide range of micron ratings, and with two different materials of construction (polypropylene and polyester).*

### **Technical Data...**

- Diameter: 7 in.
- Length: 16.5 in & 30 in.
- Hot melt seamless welding technology ensures no fluid bypass.
- Tight-knit structure eliminates fiber migration from the surface.
- Applicable to low and medium viscosity liquids at high flow rates.
- Steel PVC Coated Ring or Stainless Steel.
